DELAYED GOODS ARRIVED.
We have just received a large shipment of muslin underwear which was delayed six weeks in transit. These are new and handsome goods, but they will be sacrificed at our retiring-from-business sale prices for they should have been here and disposed of long ago. This is a chance to get choice garments at sacrifice prices. Call early and get your choice. See our window display. Our sale is approaching its end and prices are way down below bedrock. D. SHANAHAN.

A Seattle dispatch states that not including five vessels which have sailed for Bering sea and northern Siberian ports, 21 vessels, steam and sail, are scheduled for the Nome traffic this season, all to leave within the next two weeks. Their combined passenger carrying capacity is 3229 on the basis of 31,000 tons of freight. The indications are that those now listed for the Nome traffic will not be able to carry on the first voyage all of either the passengers or freight.

A COMMUNICATION.

Astoria, May 21, 1905.
Editor Astorian: In response to quite a general belief on the part of those interested in the uplift of humanity, that Astoria needs more wholesome attractions for young men and boys, on February 26, the ladies of the W. C. T. U., with voluntary help on the part of a few gentlemen, opened their room in the evenings for reading, games and sociability.

That the room has been kept open 35 evenings out of 31 is due to the faithfulness of the men in charge as well as to Mrs. Rannella, who rounded up a man from somewhere when a vacancy by sickness or business engagement occurred.

A record kept of only 28 of these evenings shows an average attendance of a little over 12. With one young people's meeting and one song service, last evening there were 14 well behaved boys in attendance.

While 12 different gentlemen have had charge, the burden has been borne by about six.

The board of managers, with the ladies of the W. C. T. U., now feel that at this busy season and while all nature calls to open air it is pressing good nature too far to try to keep the room open during the summer. Accordingly at their meeting today they voted to close the room tonight for the summer—much to their regret.

But they hope the way may be opened in the fall for an improved room with a larger outlook and with a salaried man in charge.

While the patronage of the room may not have been the same for which there seemed a demand, the experiment has shown a greater need among a certain neglected class of boys.

The board of managers feel that these few months have had something of a refreshing influence on this class. The Sunday evening Bible class conducted by Mr. Green has been more or less marked for good.

The ladies, realizing that the gentlemen who seconded their effort have done so for the betterment of their fellow-men, desire to sincerely thank them for their assistance.

We feel that this experiment has not been a failure and hope it may pave the way for something better and more permanent in which all our citizens may have an interest and pride.

Respectfully,
Mrs. C. A. Gearhart,
Pres. Board of Managers.

IN SEARCH OF STYLE.

Astoria's Leading Clothier Leaves for Chicago and New York This Week to Pick the Ripening Fall Fashions.

Mr. Herman Wise will leave this week for a trip through the principal clothing factories of the country; the young men are getting more and more exacting, and for that matter, the older ones too, and it has got so that the leaders of fashion in every city in the country race to the market to pick the choicest things.

Of course, the traveling men still come but they never carry samples of the choicest patterns because the factory only manufactures a limited quantity of extreme designs for the gentlemen who are willing to pay for the choicest insist that as "as" as possible get the special pattern.

And then it is an educational trip. One picks the brightest merchants from every section of the country who exchange ideas and relate experiences which benefit a business man, and besides an observant merchant will notice the newest window displays, store arrangements, etc., and thus become enabled to make things more pleasant for his patrons.

"I am determined to have better and finer clothes than anybody and my customers will reap part of the benefit of my trip," said Mr. Wise, "and I'll be more fit to attend to business after my trip, because I haven't had a vacation for three years and feel fatigued; but when I get back home again, you may expect a most strenuous campaign for business."

His many friends wish Mr. Wise a pleasant and profitable journey and a safe return.

In Cases of Itching, Burning, Scaly Humours,

And for Renovating and Enriching the Blood.

The Best and Most Economical Yet Compounded.

Cuticura Resolvent Pills (chocolate coated) are the product of twenty-five years' practical laboratory experience in the preparation of remedies for the treatment of humours of the skin, scalp and blood, with loss of hair, and are confidently believed to be superior to all other alternatives as well as liquid blood purifiers, however expensive, while enabling all to enjoy the curative properties of precious medicinal agents without consuming needless expenses and often injurious portions of alcohol in which such medicines have heretofore been preserved.

Complete external and internal treatment for every humour may now be had for one dollar, consisting of Cuticura Soap, to cleanse the skin, Cuticura Ointment, to heal the skin, and Cuticura Resolvent Pills, to cool and cleanse the blood.
